SCRIPTS TIPS AND TRICKS

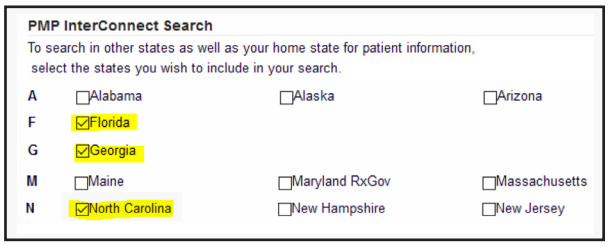
http://southcarolina.pmpaware.net

CREATE A NEW PATIENT REQUEST

- Click <MENU>, then <PATIENT REQUEST>
- Input required fields: FIRST NAME, LAST NAME, DOB (mm/dd/yyyy)

WANT TO SEARCH IN OTHER STATES?

Check the box(es) next to the desired state(s) under 'PMP InterConnect Search'



PATIENT NOT FOUND OR WANT TO EXPAND SEARCH?

Inspect required fields for errors. If there is no error:

- Check partial spelling box under first and/or last name and enter first 3 letters of the name along with DOB (mm/dd/yyyy)
- If patient has more than one first or last name, run multiple patient requests (e.g., one for Smith-Doe and one for Doe-Smith)

MULTIPLE PATIENTS FOUND?

If multiple patients are found that match the search criteria:

- When you see a scrollbar, be sure to view all patient results
- Check the box(es) next to the patient name(s) that correspond to your patient, then click <RUN REPORT> to complete your patient request
  - *Be sure to ONLY SELECT the records of patient you intend to search*
- To modify search criteria before completing the patient request, click <REFINE SEARCH CRITERIA>

SEARCH FOR MULTIPLE PATIENTS AT ONCE

- Click <MENU>, then <BULK PATIENT SEARCH>
- Input required fields: FIRST NAME, LAST NAME, DOB (mm/dd/yyyy) and click <ADD>, then repeat
- Input a Group Name (e.g., today's date), then click <SEARCH>
- Scroll to the top and click <BULK PATIENT HISTORY>
- Select Group Name
- Click desired patient row, then click <VIEW> to view the report; repeat for each patient you wish to view

RUN AN UPDATED PATIENT REQUEST (i.e., update a previous patient request for today's date)

- Click <MENU>, then <REQUESTS HISTORY>
- Click <ADVANCED OPTIONS>, then enter desired field (e.g., last name)
- Click <SEARCH>, then select patient of interest by clicking anywhere on row and click <REFRESH>
- Check 'I agree to the terms of the acknowledgment', then click <SEARCH>

Note: Your request history is maintained for up to 6 years

VIEW THE HISTORY OF PRESCRIPTIONS YOU HAVE WRITTEN

- Click <MENU>, then <MyRx>
- Enter chosen date (mm/dd/yyyy) range for the search
- Check box(es) next to DEA numbers you wish to search
- Click <SEARCH>

Note: For best results, do not enter a drug name or choose a date longer than one month

REVIEWING SCRIPTS NARX REPORTS

Vader, Darth 79M Refine Search

Contact the Bamboo Health Knowledge/Help Center

Date of Birth: 01/15/1945

Recent Address: 1111 Fake Lake, SC 01010

Messages

Allows prescriber to send a private message to another prescriber who is listed within the report

Not visible to delegates

[01/02/2022] – from Dr. Les Overdose (Internal Medicine) to Jane Doe

I wanted to let you know that family expressed concern about Test Patient buying additional opioid on the street because she is running out.

[02/02/2022] – from Dr. R.X. Safer (Family Medicine) to Jane Doe

Actions

Patient was discharged from Behavioral Health Facility. Changes to medication regimen made during hospitalization include: tapering benzodiazepine and starting SSRI.

Care Notes Add Note

02/02/2022] – from Dr. Les Overdose (Internal Medicine)

I have prescribed naloxone for this patient.

Allows prescriber to flag clinical information for all users to see in patient record

Click 'Add Note', select predefined options, then select expiration from drop-down menu (default is "never expire")

Care Notes are read-only for delegates

Care Note for

Create a care note that will remain with the patient's report. A care note shared by you can only be edited/deleted by you or a PMP Administrator.

Type of Care Note: Select

- Patient filling controlled substances under multiple providers.
- Patient has pain agreement with our practice.
- Patient reported lost or stolen prescription.
- Patient has been clustered with another patient in the past. Please check patient demographics.
- I have prescribed naloxone for this patient.
- This patient is on an opioid taper.
- Patient has prescription history in bordering states.

Expiration

This care note should: never expire

Care Note Guidelines: This care note function allows prescription drug monitoring program (PDMP) users to communicate with each other through the NarxCare interface. This function should be used for messages that are not critically time sensitive, as there may be a time lag before the recipient views any sent message. For time sensitive communications, direct communication with the desired recipient is recommended.

Cancel | Save

It is your responsibility to maintain privacy and confidentiality of all patient reports.

Properly shred or delete reports printed or saved to computers. Don't share or include in medical records.

Refer patient requests for written reports directly to SCRIPTS at 803-896-0688.

REVIEWING SCRIPTS NARX REPORTS [CONT'D]

Narx Scores are calculated based on amount of medication dispensed, number of prescribers, number of pharmacies, and overlapping prescriptions

Overdose Risk Score (ORS) is intended to be a predictive score of risk for unintentional overdose death based on key contributing factors to ORS Model

UNINTENTIONAL OVERDOSE RISK SCORE MODEL

Caution/Important Reminder: Information for Healthcare Professionals

ABOVE AVERAGE

720

NARX SCORES

NARCOTICS	SEDATIVES	STIMULANTS
622	591	260
ACTIVE RX 2	ACTIVE RX 1	ACTIVE RX 0

The last number in a Narx Score indicates the number of active prescriptions in that class

KEY CONTRIBUTING FACTORS TO OVERDOSE RISK SCORE MODEL

History of MOUD use (excluding Buprenorphine dispensations for pain management*)	No
Number of high-risk dispensations in most recent year	0
Gender most frequently reported by pharmacies is male	Yes
Age most frequently reported by pharmacies	46
Number of pharmacies where narcotics/sedatives were filled in most recent year	5
Benzo - Narcotics overlap	364 Days

Clinical Alerts (3):

- Greater than or equal to 5 prescribers or 5 pharmacies within the last 90 days
- Daily MME greater than or equal to 90 MME
- Opioid/benzodiazepine combo

State Indicators (1)

- Opioid antidote administration (3)

Details

Review naloxone administration details reported by first responders and major healthcare facilities

Data displayed may have one month delay from time of administration

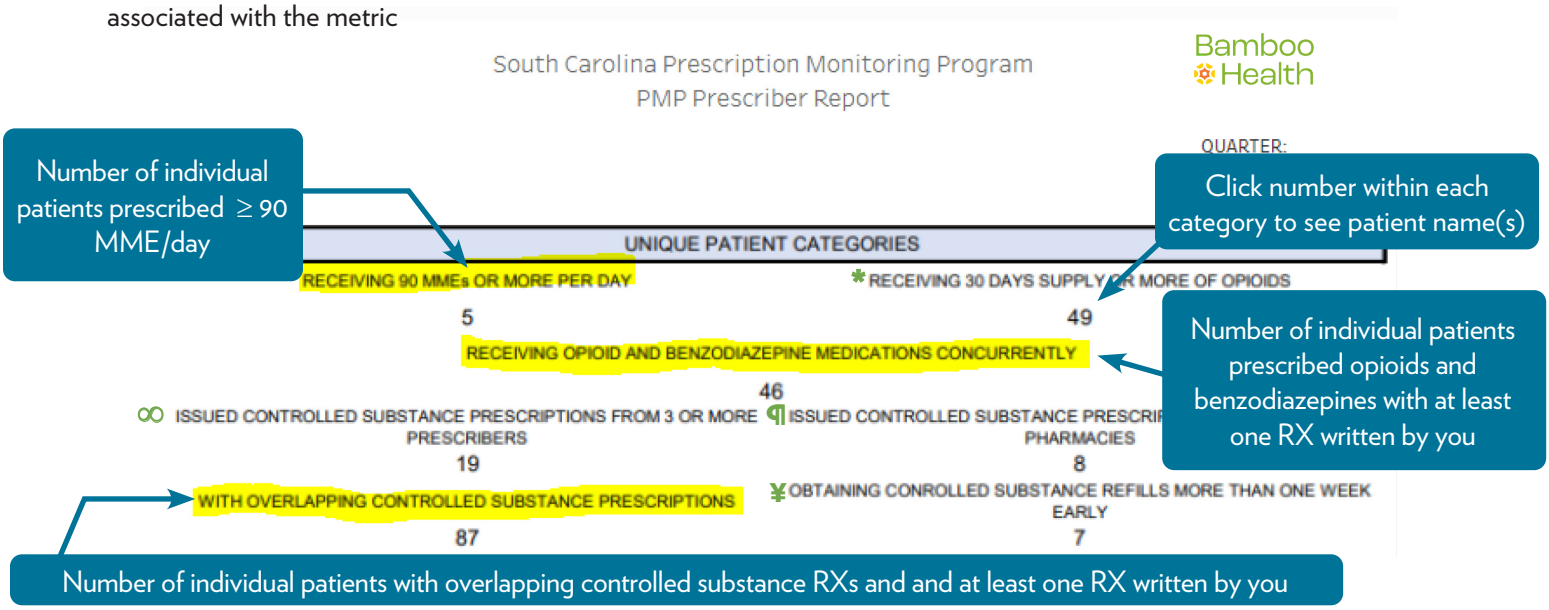
REVIEWING PRESCRIBER REPORT

PRESCRIBER REPORTS DISPLAY PATIENT RECORDS FOR EACH METRIC WHEN YOU LOG INTO YOUR SCRIPTS ACCOUNT

- Click <MENU> then <PRESCRIBER REPORT> to open your report
- Click the number under the metric within the Unique Patient Categories to see individual patient records associated with the metric



* Number of unique patients that filled an opioid you prescribed with a 30 day or more supply
∞ Number of unique patients that filled a controlled substance you prescribed who also filled controlled substances from at least 2 other prescribers
¶ Number of unique patients that filled a controlled substance you prescribed who filled controlled substance prescriptions at 3 or more pharmacies
¥ Number of unique patients that you prescribed a controlled substance who refilled the prescription more than 7 days early based on the original fill date and the listed days supply

To generate a report, prescriber must be registered in the SCRIPTS database and have written for at least one controlled substance in the previous six months. Prescriber reports are generated through Bamboo Health and not reviewed by SC DPH.

SCRIPTS DOs AND DON'Ts

DO	DON'T
Routinely check all patients to ensure safe prescribing of controlled substances	Query yourself or anyone else that is not your patient
Have a delegate register with SCRIPTS and use their own account	Share your SCRIPTS account information or password
Discuss the report with other prescribers if they are involved in the patient's care	Share or distribute reports with other prescribers or pharmacists
Properly shred or delete reports printed or saved to computers	Scan a report into a patient's medical record
Discuss the report with your patient and refer requests for written copies to SCRIPTS at 803-896-0688	Give a printed copy of the report to your patient

Key: **BZD** Benzodiazepine; **CS** Controlled Substance; **DOB** Date of Birth; **MME** Morphine Milligram Equivalent; **MME/Day** Morphine Milligram Equivalent per Day; **PMP** Prescription Monitoring Program; **RX'd** Prescribed; **RXs** Prescriptions; **SC DPH** South Carolina Department of Public Health; **SCRIPTS** South Carolina Reporting & Identification Prescription Tracking System
