Prevalence of Diabetes, End Stage Renal Disease, and Obesity Among South Carolina Medicaid Recipients By County

Notes:
 Counties shaded in gray have 'High' or 'Medium High' prevalence rates across all three conditions. Prevalence rate rankings are based on county rate distribution quartiles. Data: South Carolina Medicaid Information System, FY2010.

Created by the University of South Carolina, Institute for Families in Society, Division of Policy and Research on Medicaid and Medicare, February 2012.
