

# DRINKING ALCOHOL

## Am I a risky drinker?

Men	Women
5 or more standard drinks on just one day in the past year (OR 15 or more drinks over just one week)	4 or more standard drinks on just one day in the past year (OR 8 or more drinks over just one week)

## What is a standard drink?

12 fl. oz. of  
regular beer

about 5%  
alcohol

8-9 fl. oz. of  
malt liquor

about 7%  
alcohol

5 fl. oz. of  
table wine

about 12%  
alcohol

1.5 fl. oz. shot of  
80-proof liquor  
whiskey, gin,  
rum, vodka,  
tequila, etc.

about 40%  
alcohol

A "standard drink" is any drink that contains about 0.6 fluid ounces of pure alcohol

Drinks that are larger or stronger count as **MORE** than one drink.

**Quick tip:** Multiply ounces by the percent alcohol and divide by 60 to get the number of standard drinks.

### Don't Mix

*It is best to avoid taking products containing acetaminophen (Tylenol®) when drinking unless instructed by your doctor.*

Recommended Maximum Number of Standard Drinks if You Choose to Drink	
Men	Women
Up to 2 standard drinks a day (Up to 1 a day if over age 64)	Up to 1 standard drink a day

Experts don't know if alcohol is safe in any amount.

*Don't drink if you are underage, pregnant\*, on certain medications, or have certain medical conditions.*

## Why is it better to drink less?

- ✓ Save money
- ✓ Maintain healthier skin
- ✓ Improve relationships with family, friends, and co-workers
- ✓ Strengthen performance
- ✓ Healthier gut
- ✓ Healthier blood sugar control
- ✓ Better sleep

- ⊘ Hangovers and next-day "yuck"
- ⊘ Risky behavior or sex
- ⊘ Police or legal trouble
- ⊘ Alcohol-exposed pregnancy or breastfeeding

- ↓ Weight by cutting alcohol calories
- ↓ Blood pressure
- ↓ Risk of irregular heartbeat
- ↓ Risk of liver disease
- ↓ Risk of cancers
- ↓ Anxiety and depression
- ↓ Risk of suicide

*Don't use alcohol to "improve your health" or "deal with a problem"*

## Are you ready to make a plan to drink less or stop drinking?

- Check out the flip side of this page to get started.
- Consider talking to your doctor before stopping drinking. Some people get into trouble withdrawing on their own.

**Ask your healthcare provider about helpful medications, behavioral therapy, support groups, and phone apps that fit your lifestyle and goals if you want to better control your drinking.**
