SCRIPTS (PDMP or DHEC REPORTS) TIPS AND TRICKS

http://southcarolina.pmpaware.net

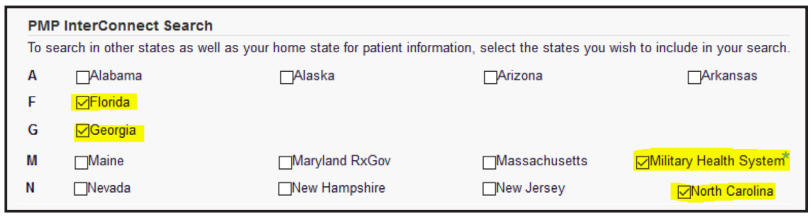
TO CREATE A NEW PATIENT REQUEST

- Click <MENU>, then <PATIENT REQUEST>
- Input required fields: FIRST NAME, LAST NAME, DOB (mm/dd/yyyy)

WANT TO SEARCH IN OTHER STATES?

Check the box(es) next to the desired state(s) under 'PMP InterConnect Search'

Only delegates with proper credentials (i.e., LPN, RN) are authorized to search in select states (e.g., Georgia)



* Controlled medications dispensed at Department of Defense (DOD) facilities; Veterans Administration facilities report to individual state PDMPs

CAN'T FIND PATIENT OR WANT TO EXPAND SEARCH?

Check required fields for errors. If there is no error:

- Enter the patient zip code (identifies most patients with hyphenated names or names that contain a suffix [e.g., Jr., Sr.])
  OR
  Use partial spelling option (check partial spelling box and enter first 3 letters of first and/or last name)
- If more than one first or last name, run multiple patient requests (e.g., one for Smith-Doe and one for Doe-Smith)

MULTIPLE PATIENTS FOUND?

If multiple patients found that match the search criteria:

- Be sure to move/scroll sidebar, if present, to view all patient groups
- To complete patient request, check the boxes next to the patient group(s) that may represent your patient, then click <RUN REPORT>
  - *Be sure to ONLY SELECT the patient records of the patient you intended to search*
- To modify search criteria before completing the patient request, click <REFINE SEARCH CRITERIA>

TO SEARCH FOR MULTIPLE PATIENTS AT ONE TIME

- Click <MENU>, then <BULK PATIENT SEARCH>
- Input required fields: FIRST NAME, LAST NAME, DOB (mm/dd/yyyy) and click <ADD>, then repeat
- Input a Group Name (e.g., date), then click <SEARCH>
- Scroll to the top and click <BULK PATIENT HISTORY>
- Select Group Name
- Click desired patient row, then click <VIEW> to view the report; repeat for each patient you wish to view

TO RUN AN UPDATED PATIENT REQUEST (i.e., rerun a previous patient request for today's date)

- Click <MENU>, then <REQUESTS HISTORY>
- Click <ADVANCED OPTIONS>, then enter desired field (e.g., last name)
- Click <SEARCH>, then select patient of interest by clicking anywhere on row and click <REFRESH>
- Check 'I agree to the terms of the acknowledgment', then click <SEARCH>

Note: Your request history is maintained for up to 6 years

TO VIEW PRESCRIPTIONS YOU WROTE DURING A SPECIFIC TIME PERIOD

- Click <MENU>, then <MyRx>
- Enter chosen date range for the search
- Check box(es) next to DEA numbers you wish to search
- Click <SEARCH>

Note: For best results, do not enter a drug name and choose a date range no longer than one month

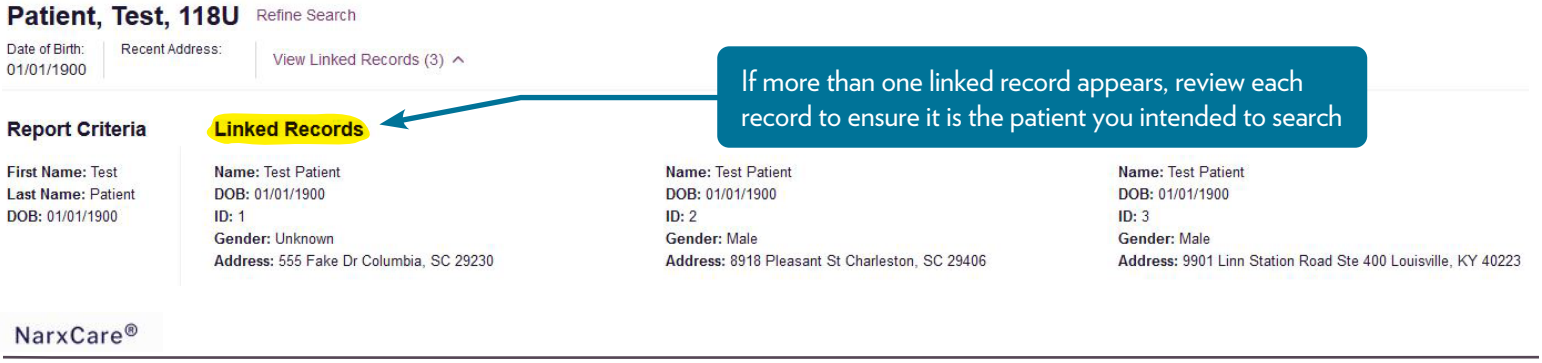
TIPS AND TRICKS FOR REVIEWING SCRIPTS NARX REPORTS

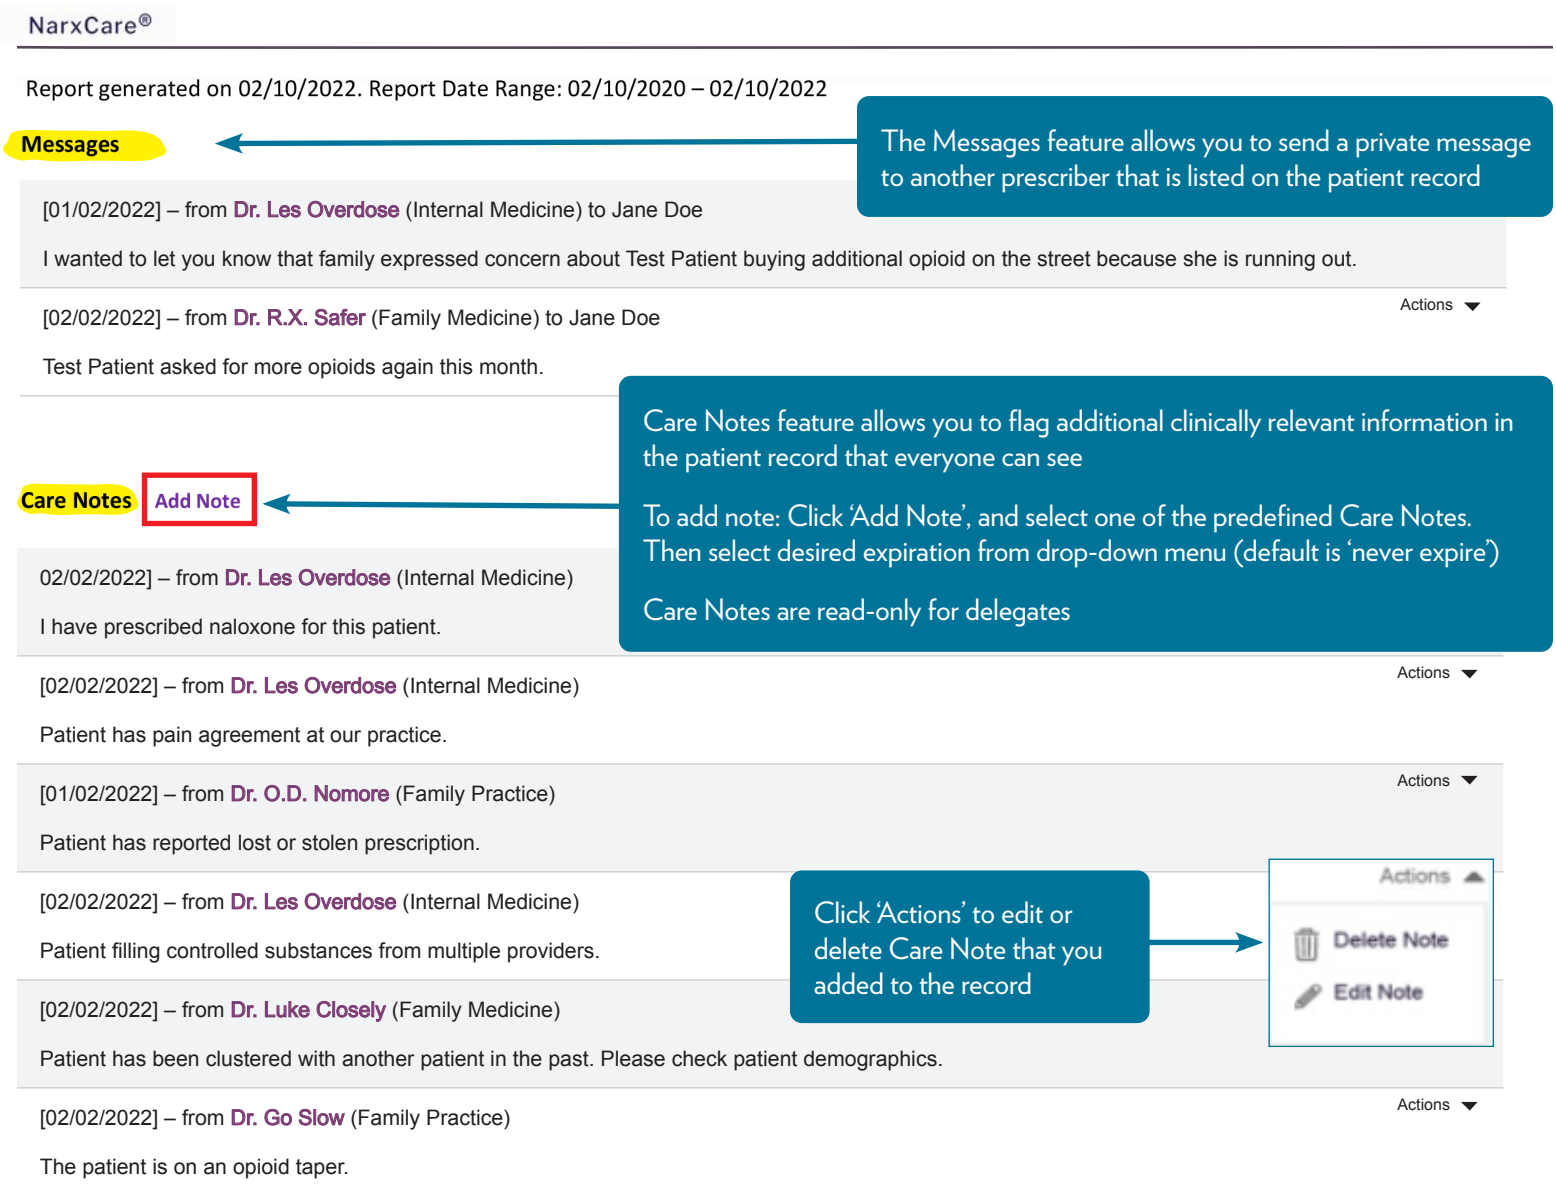
HOW TO PRINT A NARX REPORT

NEW QUICK PRINT OPTION FOR CONDENSED NARX REPORT

When viewing a patient's Narx report, click <PDF Report> to download and generate the new condensed printable version that excludes the communications tab, charts, and graphs.

- Be sure to print in the default portrait mode





Important Disclaimer: It is your responsibility to maintain patient privacy and confidentiality with any patient report

Privacy Considerations: Refer requests from patients and others for copies of patient SCRIPTS Narx Reports directly to SCRIPTS team at 803-896-0688.

TIPS AND TRICKS FOR REVIEWING SCRIPTS NARX REPORTS [CONT'D]

Narx Scores are calculated based on amount of medication dispensed, number of prescribers, number of pharmacies, and overlapping prescriptions

Overdose Risk Score (ORS) is intended to be a predictive score for unintentional overdose death

NEW CLINICAL ALERT FEATURE

Narx Scores

Narcotic	Sedative	Stimulant
300	180	000

The last number in a Narx Score indicates the number of active prescriptions in that class

Overdose Risk Score

520

(Range 000-999)

State Indicators (5)

- Daily Active MME ≥ 90
- Overlapping Opioid & Benzodiazepine
- ≥ 5 Prescribers in 90 days
- ≥ 5 Dispensers in 90 days
- Naloxone Administered

State Indicator Clinical Alerts include:

- ≥ 90 MME/day
- Any opioid or benzodiadepine dispensed within the same overlapping time period
- ≥ 5 prescribers or ≥ 5 pharmacies (dispensers) within a 90 day period
- Naloxone administration reported by EMS, first responders, or major healthcare facilities in South Carolina (patient must have controlled substance filled within searched time frame [default 2 years] for alert to populate)

RX Summary Expanded

The average MME/day for the last 30 days

Narcotics (excluding Buprenorphine)		Buprenorphine		Sedatives
30 Day Avg. MME	38.50	30 Day Avg. mg/day	0.00	30 Day Avg. LI
90 Day Avg. MME	41.12	90 Day A		Day Avg. LI
Rx Count/12 Months	29	Rx Count		Count/12 M
Prescriber #/6 Months	4	Prescriber #/6 Months	0	Prescriber #/6
Pharmacy #/6 Months	2	Pharmac		macy #/6
Current Quantity	24	Current Q		nt Quanti

Number of CS RX's filled in the last 12 months

Estimated quantity of medication remaining on the day of patient request

Integrated Patient Records
Total (3)

Naloxone administration details

Incident Date	Medication Given	Dosage	Administered By	Zip code of Administration
12/12/2021	Naloxone (Narcan)	1 mg	University Hospital	29401
12/12/2021	Naloxone	1 Each	EMS	29407
06/20/2021	Naloxone	1 Each	EMS	29407

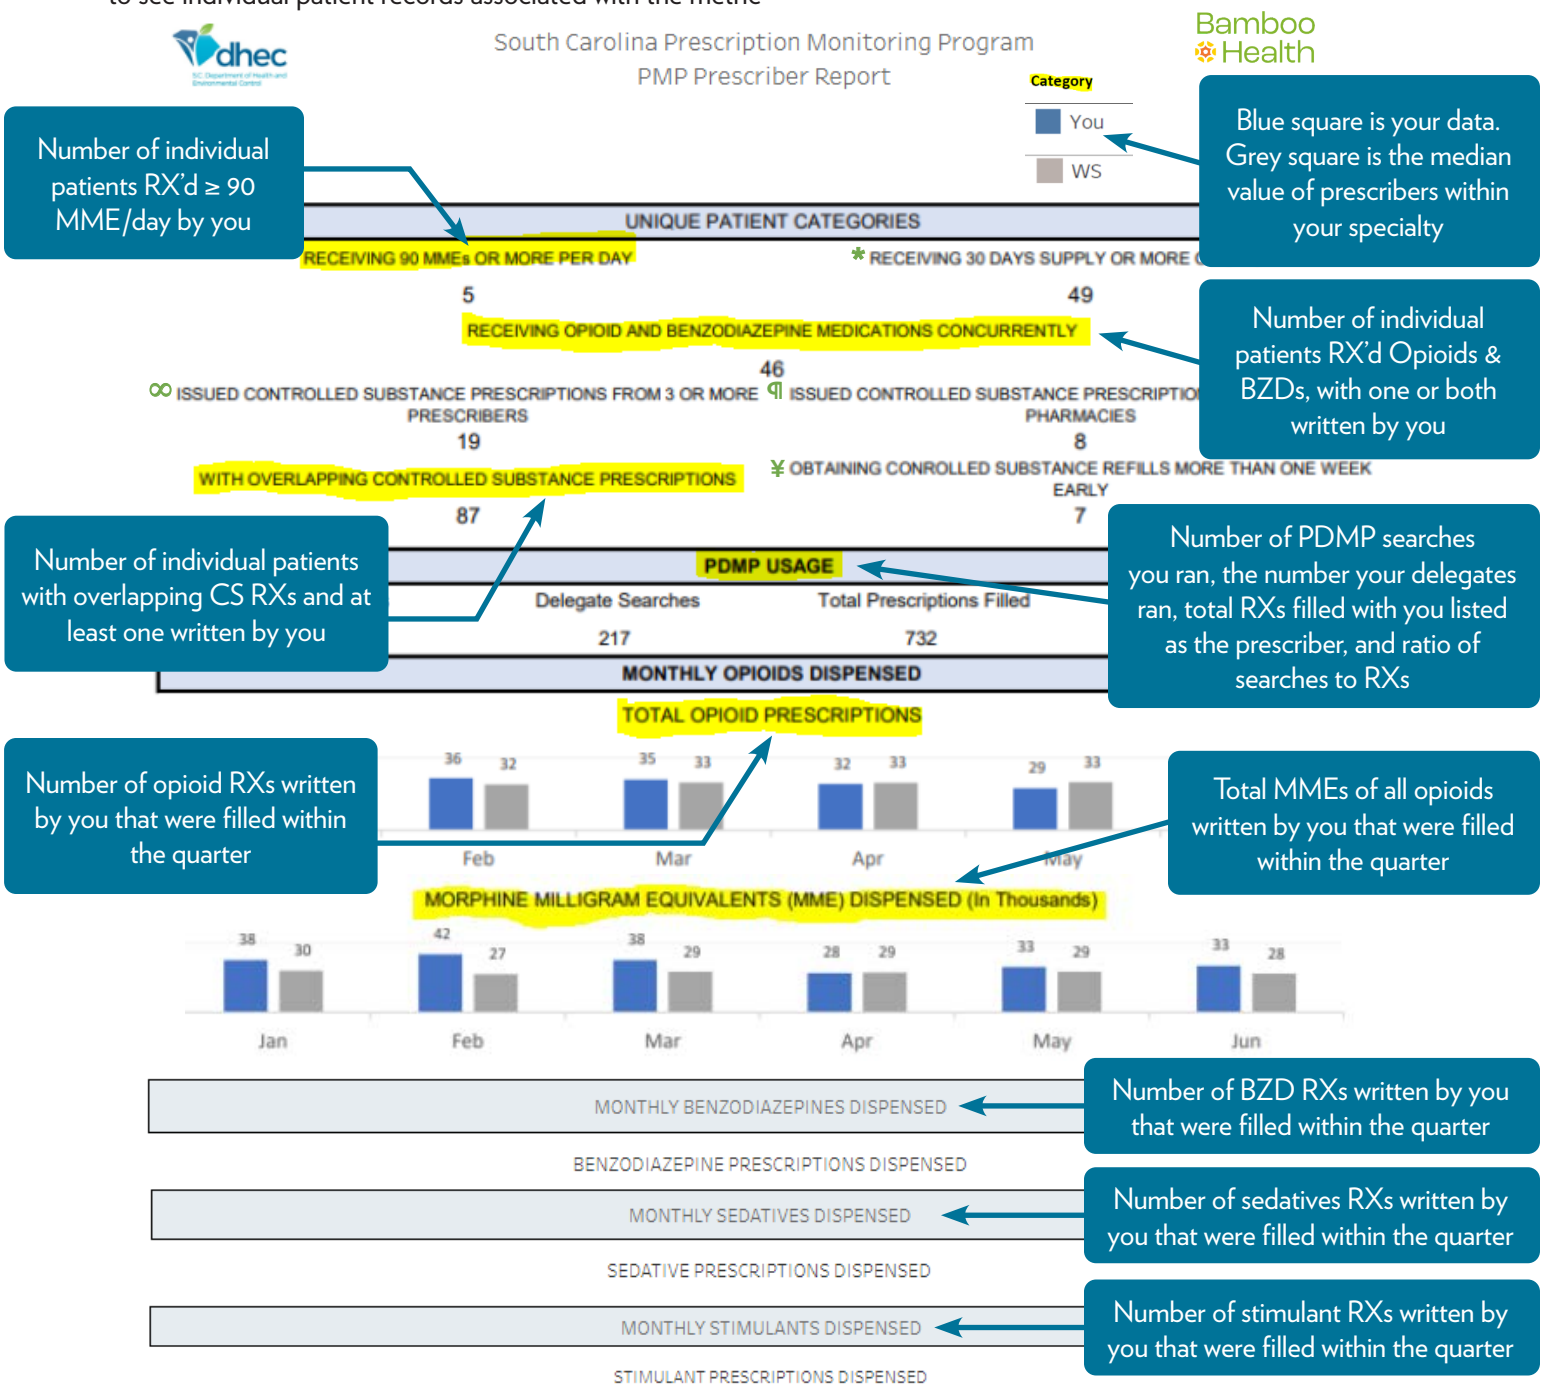
TIPS AND TRICKS FOR REVIEWING PRESCRIBER REPORT

PRESCRIBER REPORTS NOW DISPLAY PATIENT RECORDS FOR EACH METRIC WHEN YOU LOG INTO YOUR SCRIPTS ACCOUNT

- Click <MENU> then <PRESCRIBER REPORT> to open your report
- Click the number under the metric within the Unique Patient Categories to see individual patient records associated with the metric



Number of individual patients RX'd ≥ 90 MME/day by you

Blue square is your data. Grey square is the median value of prescribers within your specialty

Number of individual patients RX'd Opioids & BZDs, with one or both written by you

Number of individual patients with overlapping CS RXs and at least one written by you

Number of PDMP searches you ran, the number your delegates ran, total RXs filled with you listed as the prescriber, and ratio of searches to RXs

Number of opioid RXs written by you that were filled within the quarter

Total MMEs of all opioids written by you that were filled within the quarter

Number of BZD RXs written by you that were filled within the quarter

Number of sedatives RXs written by you that were filled within the quarter

Number of stimulant RXs written by you that were filled within the quarter

Key: **BZD** Benzodiazepine; **CS** Controlled Substance; **MME** Morphine Milligram Equivalent; **MME/Day** Morphine Milligram Equivalent per Day; **PDMP** Prescription Drug Monitoring Program; **RX'd** Prescribed; **RXs** Prescriptions; **SCRIPTS** South Carolina Reporting & Identification Prescription Tracking System; **WS** Within Specialty

* The number of unique patients that filled an opioid you prescribed with a 30 day or more supply.
∞ The number of unique patients with a dispensed controlled substance you prescribed who also received controlled substances from at least 2 other prescribers.
¶ The number of unique patients dispensed a controlled substance you prescribed who filled controlled substance prescriptions at 3 or more pharmacies.
¥ The number of unique patients that you prescribed a controlled substance who refilled the prescription more than 7 days early based on the original fill date and the listed days supply.

Prescriber must be registered in the SCRIPTS database & have written for at least one controlled substance in the previous six months to have a report generated
